

Education

**Degree: Bachelor of Arts in Early Childhood Education
Bachelor Arts in Intervention Specialist, K-12
Bachelor of Arts in Middle Childhood Education
Adolescent/Young Adult License Program**

All education majors participate in a field experience to introduce them to the program, beginning with their freshman year. During each year that follows, students will venture out into their teaching area to practice theories and methods they have learned in the classroom. The field experience culminates in a student teaching position during the senior year. Because we stress the role of technology in teaching, you'll learn to utilize the newest instructional technologies, making you prepared to meet the growing demand for teachers who know how to integrate technology into instruction. You will learn to create web pages and other instructional applications to use with students in your classroom. During your senior year, you will complete your electronic portfolio to showcase your knowledge and skills as a beginning teacher.

Full-time faculty:

Dr. Bill Bauer, Associate Professor
Dr. Dorothy Erb, Professor, Chair of Education Department
E mail: erbd@marietta.ed

Dr. Carole Hancock, Associate Professor
Dr. Connie Golden, Professor
Dr. Cathy Mowrer, Associate Professor

Integrated Arts for Early Childhood
ECE- Programs and the Learner
ECE Social Studies
ECE Mathematics
ECE Science
Critical Issues in Early Childhood Educ.
Elementary School Activities
Child Development
23 hours of Core Content Courses

"I chose Marietta College for a variety of reasons. The academic reputation was great. It was close to home and I could continue to participate in athletics. After attending MC, I realized that the level of personal attention and guidance surpassed my expectations. I decided to pursue a major in education because I always enjoyed working with younger people, and I understood the influence that many educators and coaches had on me. I am currently ready to start my sixth year teaching Social Studies at Edison Middle School in Parkersburg, WV where I also serve as the head football coach."
Mike Rusk, Class of 2003

Honor Societies and Student Organizations:

The **Marietta College Teacher Education Association (MCTEA)** brings guest speakers to campus, promotes interest in teaching, and encourages the professional growth of its members.

Kappa Delta Pi, the international honor society in education, recognizes students who show scholarship and high personal standards as well as promise in teaching and allied fields.

Scholarship Opportunities:

The Adamson-Flesher Scholarship provides awards to selected students preparing to teach in public schools.

The Mark R. Amstutz Memorial Scholarship is awarded to a junior, chosen by the Marietta College Department of Education, who is preparing to teach at the elementary level.

The Raymond G. Guthrie Education Scholarship assists qualified juniors preparing to teach in the public schools.

The Joseph Greer McMurry Scholarship is given to an outstanding junior preparing to teach in the field of English.

The Michael J. Conte Educator as Leader Award is awarded to the outstanding education student who is also pursuing a leadership certificate.

What can I do with this degree?

- Teacher
- Principal
- Administrator
- Educational consulting
