

To: Juniors and seniors potentially qualified to do Research Honors
From: Dr. David Brown, Director of the Honors Program
Date: January 12, 2012

Congratulations! If you received this letter you are a "junior" or "senior" (80 completed credit hours or more) with a cumulative GPA of 3.300 or higher. The Honors and Investigative Studies Committee would like to invite you to put a final distinctive touch on your Marietta College education by completing the Research Honors Program and graduating with *Honors in a Discipline*. If you have at least a 3.300 GPA in a discipline, you are eligible to complete a senior thesis in that discipline. **NOTE that you do not have to have participated in the Curriculum Honors Program in order to conduct a Research Honors thesis.** More information on the Research Honors Program is on our web page at <http://www.marietta.edu/academics/resources/honors>.

An informational meeting for junior and senior students and (thesis) advisors will be held Friday January 20 at 12 PM in Bartlett Hall room 362 with light refreshments being served. If you cannot attend the meeting, I would be happy to speak with you about the program at some other time. Feel free to e-mail me at david.brown@marietta.edu or call me at 376-4916.

Any qualified senior (3.300 cumulative GPA and 3.300 GPA in the chosen discipline) who intends to pursue a senior honors thesis should complete and return the attached form by Friday February 3 at 5 PM.

Intent Form - Intent to Submit a Proposal for a Research Honors Thesis
