2015-2016 Verification Worksheet for Federal Student Aid Programs

Your financial aid application has been selected by the U.S. Department of Education for review in a process called verification. Federal law states that before you can receive federal aid we must confirm the accuracy of the information on your FAFSA. If there are differences, the College may need to correct your FAFSA and re-evaluate your eligibility for financial aid. Since we cannot continue to process your financial aid until verification has been completed, please provide the required documents as soon as possible. Financial Aid will be placed on "hold" until this process is completed.

Verification of Tax Information for 2015-16

Beginning with the 2012-13 school year, federal regulations changed the way in which colleges are allowed to collect federal tax information for the verification process. Signed copies of federal tax returns (1040, 1040A, 1040EZ) are no longer sufficient to confirm the income reported on the FAFSA for most verifications. There are now two options available to verify IRS tax information: **IRS Data Retrieval** or **IRS Tax Transcript**.

OPTION 1 – If you use the IRS Data Retrieval tool:

When completing the income sections of the FAFSA, the applicant is given the option to have this data retrieved directly from the IRS. If you use this option and make no changes to your financial information, you are not required to submit an IRS transcript for verification purposes. You will still need to complete the enclosed Verification Worksheet & provide all W-2 forms.

Important facts regarding the IRS Data Retrieval System:

- The tax filer must have a 2014 IRS tax return filed & processed by the IRS to use this system.
- Taxes filed electronically should be available for Data Retrieval 2-3 weeks after the tax return has been accepted by the IRS.
- Taxes filed on paper may take 8-11 weeks after initial mailing before the Data Retrieval System can be accessed.
- Technical questions regarding the IRS Data Retrieval process may be directed to FAFSA at 1-800-433-3243.

If you did not initially use the IRS Data Retrieval, you may do so by making a correction to the FAF-SA. Login into your record at www.fafsa.gov and select Make FASFA Corrections. Click on the "Financial Information" tab, update your tax filing status to "already completed" and follow the directions. Then click on "Link to the IRS" to utilize the IRS Data Retrieval Tool. In order to access tax information, your name and address must be entered exactly as it appears on your tax return. Once entered, hit submit, then "Transfer My Tax Info" then click "Transfer Now". Once your tax information is transferred to your FAFSA, you will need to provide your PINs as your electronic signatures and Save & Submit your FAFSA.

If the retrieved data is *has not* been changed, then an IRS tax transcript will not be required. If the retrieved IRS tax information *is* subsequently changed on the FAFSA, the applicant will be required to submit an IRS tax transcript.

When the Data Retrieval Process may not work -

The IRS Data Retrieval process may not be available in the following circumstances:

- A joint tax return was filed for 2014 and the student or the student's parents filed the FAFSA with a marital status of separated, divorced or widowed.
- If the tax filer is married to someone other than the individual included on the 2014 joint tax return.
- If the parent or student was not married in 2014 but is married at the time the FAFSA is filed. The current spouse's income must be reported on the FAFSA and separate tax transcripts for each individual are required.
- If the parents filed tax returns separately.
- If an amended tax return was filed.
- If a foreign tax return was filed.

OPTION 2 – If you are not able or choose not to use the IRS Data Retrieval tool, or subsequently change financial information on your FAFSA:

If applicants decide to not use the IRS data retrieval process and the application is chosen for verification, the applicant and the parents will be required to submit an IRS tax transcript. Instructions for requesting a tax transcript are listed below.

Requesting an IRS Tax Return Transcript for 2014 – There are several ways to order a federal tax return transcript from the IRS. These methods do not charge a fee:

- Online at: http://www.irs.gov, under Tools click on the Order a Return or Account Transcript link. Make sure to request the "IRS Tax Return Transcript", not the "IRS Tax Account Transcript". Use the Social Security Number and the date of birth of the first person listed on the 2014 IRS income tax return, and the address exactly as listed on the income tax return. If the parents filed separate 2014 income tax returns, a tax return transcript must be provided for both. The document will be displayed in a printable PDF format; users can view, print and save this file. Please note that a Tax Account Transcript does not provide adequate information and cannot be accepted for verification.
- **By phone**: Call 1-800-908-9946 and request a Tax Return Transcript. Follow prompts selecting option #2, and then enter tax year "2014". A paper transcript will be mailed to the requestor within 5-10 days.
- In person: You can go to your local IRS Taxpayer Assistance Center and order a Tax Return Transcript in person. To locate the nearest center, go to www.irs.gov; click Contact IRS at the top of the screen, then select Contact Your Local IRS Office. Please note that a copy of your tax return with the IRS stamp on it cannot be accepted for verification.
- **By mail**: The request form (Form 4506T) can be downloaded from www.irs.gov. Under **Tools**, click on *Order a Return or Account Transcript*. Near the bottom of the screen, select *Form 4506-T*. Transcripts ordered using this method can be mailed directly to Marietta College by the IRS if the tax filer requests this on line 5.

If you filed an amended tax return (1040X), you will need to obtain and submit both the Tax Return Transcript and a signed photocopy of your 1040X form.
