MIRIDAE																																
Lygus lineolaris							-------	-------	-------	-------	-------	-------	-------	-------	-------	-------	-------	-------	-------	-------	-------	---------			-------	-------	-------	---------				
Stenotus binotatus									-------	-------	-------	-------	---------																			
Plagionathus politus										-------	---------						---------				-------	-------	-------	---------								
Adelphocoris rapidii									-------	---------					-------	-------	-------	-------	-------	-------	-------	-------	-------	-------	---------							
Miris dolobratus									-------	-------	-------	-------	---------																			
Strongylocoris stygius								-------	---------					---------																		
Horcias dislocatus										-------	-------	---------																				
Poecilocapsus lineatus							-------	-------	-------	-------	-------	---------																				
Lopidea spp.											---------			-------	-------	-------	---------			---------												
PHYMATIDAE																																
Phymata sp.								-------	-------	-------	-------	---------			-------	-------	-------	-------	-------	-------	-------	-------	-------	-------	-------	-------	---------					
REDUVIIDAE																																
Arilus cristatus												nympl	nympl	nympl	nympl	---------			-------	---------				---------			-------	-------	---------			
Sinea sp.									-------	-------	---------				nymph					nympl	nympl	-------	-------	-------	-------	---------						
Zelus sp.				nymph			nymph		-------	-------	---------				-------	---------										nymph							
Pselliopus sp.			-------	---------				-------	-------	-------	---------				nympl	-------	-------	---------		nymph		-------	-------	-------	---------								
Rhiginia cruciata						-------	-------	-------	-------	-------	---------																					
NABIDAE																																
Nabus subcoleoptratus											-------	-------	-------	---------																		
NEIDIDAE																																
Jalysus sp.								-------	---------				-------	---------								---------										
LYGAEIDAE																																
Lygaeus turcicus														-------	-------	-------	-------	-------	---------			---------										
Lygaeus kalmii									-------	-------	-------	-------	-------	-------	-------	---------			-------	-------	-------	---------							---------			
Oncopeltus fasciatus												-------	-------	-------	-------	-------	-------	-------	-------	---------			-------	-------	-------	-------	-------	-------	-------	-------	-------	---------
COREIDAE																																
Merocoris distinctus											---------											-------	-------	---------								
Euthochtha galeator							-------	-------	-------	-------	-------	-------	-------	-------	-------	---------			-------	-------	-------	-------	-------	-------	-------	-------	---------					
Acanthocephalus terminalis						-------	-------	-------	-------	-------	-------	-------	---------				-------	-------	---------			---------			-------	-------	---------					
Harmostes reflexulus									---------																							
CORISCIDAE																																
Coriscus eurinus											---------					-------	-------	-------	---------					---------			-------	-------	---------			
ARADIDAE																																
Aradus acutus								---------																								
PENTATOMIDAE																																
Murgantia histrionica									---------																							
Cosmopepla bimaculata									-------	-------	---------					---------						---------					---------					
Meadorus lateralis								-------	---------																							
Hymenarcys equalis																									-------	---------						
Euschistus spp.									---------			---------			-------	-------	-------	-------	---------						-------	-------	---------					
Dendrocoris humeralis																							-------	---------								
Podisus maculiventris														---------						---------												
Acrosternum hilare							-------	---------								---------				-------	-------	-------	-------	-------	---------						
Brochymena quadripustulatum																		nymph								-------	---------					
Stiretrus anchorago						---------				-------	---------			-------	-------	---------			-------	-------	-------	-------	-------	-------	---------						
Mormidea lugens							---------				---------						---------															
Apateticus sp.											---------																					
Thyanta accerra																	nymph				nympl	nympl	nympl	nympl	nympl							
Perillus bioculatus										nympl	---------																					
MEMBRACIDAE																																
Enchenopa binotata															---------																	
Aphrophora sp.													-------	-------	---------					-------	-------	-------	-------	-------	---------							
Campylenchia curvata													-------	---------						---------						---------						
Ceresa sp.									---------								-------	-------	-------	-------	-------	-------	---------									
Acutalis tartarea																---------								-------	---------			---------			
Entylia bactriana							-------	-------	-------	-------	---------																					
CERCOPIDAE																																
Philaenus spumarius																											---------					
Monecphora bicincta																-------	---------															
CICADELLIDAE																																
Oncometopia lateralis																											---------					
Oncometopia undata							-------	-------	-------	-------	---------													-------	-------	-------	---------					
Jasus olitorius																---------						-------	-------	---------
