Marietta Natural History Society

Summer 2009 Programs

Well Worked

Thursday, July 9

7:00 PM

Meet at

840 East 8th S

(the WWTP)

Tour Guide →

Steve Elliott

Steve, the Superintendent of Marietta Waste Water Treatment Plant, will give us a tour of the facility. Learn what can and cannot be treated, why stormwater is a problem, and why we need to upgrade to the plant. Get answers to these questions and more.

Waste Water

Solvay Polymers Advancing

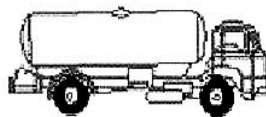

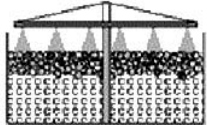

Thursday September 10

6:00 PM – Meet at the
Hermann Fine Arts Center
parking lot, 4th & Butler

Presenter

Mark Potochnik

Mark is the Health, Safety and Environmental Manager at Solvay Advanced Polymers and will show the Solvay facility and their new advanced air emissions control system. Much planning, design and investment has been required to achieve these improvements.

Thursday, August 13

7:00 PM

Meet at Greenleaf

Garden Center on SR 60

Nursery Thymes

A tour of Greenleaf Landscaping is on the schedule! We all know it is more than petunias and roses but what is involved in running a successful landscaping business? Who keeps track of all those wheelbarrows and shovels? How are the plants on the lot cared for and where do they all come from? How is the mileage tracked? Who orders the t-shirts? Bring your green thumb or a thumb to green.
