

# Physics Colloquium Series 2006 - 2007

- September 15      Professor Donald Carpenetti  
Chemistry Department, Marietta College  
*"Reflections on Color"*
- September 29      Professor Susan Lehman,  
Physics Department, College of Wooster  
*"Nanotechnology and Quantum Dots"*
- October 13        Mr. William Schrensky (MC class of '84)  
Cooper Tire, Inc.  
*"Opportunities for Applied Physics in U.S. Manufacturing"*
- October 27        Dr. Cavendish McKay  
Physics Department, Marietta College  
*"A Ridiculously Brief Introduction to Dynamics of Wind-Driven Ocean Circulation"*
- November 10      Dr. Steven Snyder  
Vice President for Exhibit and Program Development,  
Franklin Institute, Philadelphia  
*"A Career in Hands-on Science Outreach"*
- January 26        Dr. Susan Thompson, Colorado College  
*"Deciphering White Dwarf Stars: a Variable Diamond in the Rough"*
- January 29 (M)    Dr. Joe Christensen, McMurry University  
*"Stretching the Nucleons: the Quarks Weigh in"*
- February 8 (Th)   Dr. Nickolas Solomey, Illinois Institute of Technology  
*"The Neutrino and the Need for Future Particle Interaction Measurements"*
- March 30         Mr. Kevin Wall (MC '78), Quest Information Technology, Inc.  
*"Quantum Key Distribution"*  
Part of the MC Alumni Speaker Series
- April 20          Dr. Sergei Urazhdin, West Virginia University  
*"Spintronics"*
- April 27          Dr. Richard Mancuso, SUNY Brockport  
*"The Physics in Toys"*
