Furthermore, it builds on what educators know about the importance of ongoing assessment and feedback as a powerful vehicle to support improved practice. Teacher performance and student academic growth are the two key components of Ohio's evaluation system.

Limitations of the Ohio Teacher Evaluation System (OTES) Data:

1. The information in the report is for those individuals receiving their licenses with effective years of 2011, 2012, 2013, and 2014.

- 2. The teacher evaluation data in this report are provided by the Ohio Department of Education.
- 3. Due to Ohio law, results must be masked for institutions with fewer than 10 completers with OTES data.

### **Description of Data:**

February 2016 Note: Value-Added results for the 2015 Report are not yet available. Revised Educator Preparation Performance Reports will be published when these data become available.

Ohio's value-added data system provides information on student academic gains. As a vital component of Ohio's accountability system, districts and educators have access to an extensive array of diagnostic data through the Education Value-Added Assessment System (EVAAS). Schools can demonstrate through value-added data that many of their students are achieving significant progress. ### **Teacher Preparation Programs**

Initiative:	Clinical Partnership Rubric
Purpose:	Assessment of P-12 School Partnerships
Goal:	To develop a rubric to measure progress in the development of clinical partnerships.
Number of Participants:	5
Strategy: Demonstration of Impact:	Administrators from 5 partnership schools worked with college faculty to brainstorm characteristics of casual, emerging, and mature partnerships between the college and P-12 schools. From this, a rubric was developed with indicators at each level for the roles of teachers, candidates, college faculty, and students and characteristics of decision making, program planning, professional development, and resources. The rubric is currently being used to measure growth in each of these areas for our clinical partnership sites. The rubric was also used to develop a survey instrument that was completed by administrators and teachers at each site. Data from the initial administration of the survey.
External Recognition:	Presented to the Fall 2015 CAEP Conference; Rubric is currently being utilized numerous institutions
Programs:	Early Childhood, Middle Childhood, AYA, Intervention Specialist
Initiative:	Pre-Intern Immersion Expereince
Purpose:	Extended expereince for pre-inten candidates
	Extended expereince for pre-inten candidates To provide pre-interns candidates with experience preparing for the start of the school year and contextual information about their students.
