Teacher Education at Marietta College

*Teach, Lead, Succeed*

Education Internship

The Education internship semester is the capstone experience in a carefully designed program of developmental field experiences for the pre-service teacher. The internship experience is the major component of the Education Semester. Through this experience, the intern assumes the role of classroom lead teacher and has the opportunity to demonstrate the knowledge, skills, and dispositions necessary for effective teaching. In addition to the internship program objectives, the intern builds upon prior field experiences to meet personal goals set at the beginning of the Education Semester.

Program Goals

Marietta College endeavors to provide teacher candidates with the experiences that will enable them to become Educator Leaders who

1. **Demonstrate effective pedagogy** through the use of evidence based instructional practices, varied assessment tools, and technology for teaching and learning.
2. **Demonstrate content knowledge** in their discipline areas.
3. **Demonstrate efficacy** by believing all students can learn, understanding and respecting cultural and academic diversity, and differentiating instruction to ensure that all students will learn.
4. **Act as change agents** who are willing to try new approaches to solve problems and who are willing to take risks to challenge the status quo.
5. **Develop professional relationships** that enable them to collaborate with colleagues, families, communities, and professional organizations for the purpose of facilitating student learning.
6. **Engage in reflective practice** including the ability to analyze teaching performance, student learning, and current issues in education.
# Program Outcomes

As a Marietta College teacher education candidate, you will be expected to demonstrate knowledge, skills, and dispositions that focus on the learner and learning, content knowledge, instructional practice, and professional responsibility.

## Content

| **4. Content Knowledge:** Understand the central concepts, tools of inquiry, and structures of the discipline taught and create learning experiences that make these aspects of the discipline accessible and meaningful for learners to assure mastery of the content. | 4               | II |
| **5. Application of Content:** Understand how to connect concepts and use differing perspectives to engage learners in critical thinking, creativity, and collaborative problem solving related to authentic local and global issues. | 5               | II |

## Instructional Practice

| **6. Assessment:** Understand and use multiple methods of assessment to engage learners in their own growth, to monitor learner progress, and to guide the teacher’s and learner’s decision making. | 6               | I  |
| **7. Planning for Instruction:** Plan instruction that supports every student in meeting rigorous learning goals by drawing upon knowledge of content areas, curriculum, cross-disciplinary skills, and pedagogy, as well as knowledge of learners and the community context. | 7               | I  |
| **8. Instructional Strategies:** Understand and use a variety of instructional strategies to encourage learners to develop deep understanding of content areas and their connections, and to build skills to apply knowledge in meaningful ways | 8               | I  |

## Professional Responsibility

| **9. Professional Learning and Ethical Practice:** Engage in ongoing professional learning and use evidence to continually evaluate practice, particularly the effects of choices and actions on others (learners, families, other professionals, and the community), and adapt practice to meet the needs of each learner. | 9               | IV VI|
| **10. Leadership and Collaboration:** Take an active role on the instructional team and work with other school professionals to plan and jointly facilitate learning on how to meet diverse needs of learners. | 10             | V  |
Marietta College Approved Licensure Programs

STATE TESTING AND APPLICATION FOR LICENSURE

Teacher candidates in the State of Ohio must receive passing scores on the Ohio Assessment for Educators test in the following areas:

a) A test of professional knowledge (candidates are required to take only one)
b) A test of curriculum content or specialization (Specialty Area Tests) in each area of the license
c) Foundations of Reading – test of knowledge of teaching reading (required for SEED and middle childhood majors)
Teacher education candidates are eligible to take one or all of the examinations after they have completed at least 75 percent of their approved program. Exams must be taken and passed prior to the internship semester. Exams are offered via computer at multiple testing locations. Information is shared during the spring meeting for prospective student teachers and is also available in the Education Department office. Candidates should go to www.oh.nesinc.com to access information on test registration and to obtain additional information about the tests.

Upon successful completion of all the required test(s), as well as all other criteria listed in the “Recommendation for Licensure” section, the application for the Ohio Resident Educator license will be approved by the department chair or licensure designee.

Questions about registering for the license tests and completing the license application process should be addressed to the Director of Student Teaching and Field Experiences or the Chair of the Education Department.

Marietta College Department of Education Student Intern Handbook

6
General Information for Interns

Ohio Standards for the Teaching Profession

Standard 1: Teachers understand student learning and development and respect the diversity of the students they teach.
· Teachers display knowledge of how students learn and of the developmental characteristics of age groups.
· Teachers understand what students know and are able to do and use this knowledge to meet the needs of all students.
· Teachers expect that all students will achieve to their full potential.
· Teachers model respect for students’ diverse cultures, language skills and experiences.
· Teachers recognize characteristics of gifted students, students with disabilities and at-risk students in order to assist in appropriate identification, instruction and intervention.

Standard 2: Teachers know and understand the content area for which they have instructional responsibility.
· Teachers know the content they teach and use their knowledge of content-area concepts, assumptions and skills to plan instruction.
· Teachers understand and use content-specific instructional strategies to efficiently teach the central concepts and skills of the discipline.
· Teachers understand school and district curriculum priorities and the Ohio academic content standards.
· Teachers understand the relationship of knowledge within the discipline to other content areas.
· Teachers connect content to relevant life experiences and career opportunities.

Standard 3: Teachers understand and use varied assessments to inform instruction, evaluate and ensure student learning.
· Teachers are knowledgeable about assessment types, their purposes and the data they generate.
· Teachers select, develop and use a variety of diagnostic, formative and summative assessments.
· Teachers analyze data to monitor student progress and learning, and to plan, differentiate and modify instruction.
· Teachers collaborate and communicate student progress with students, parents and colleagues.
· Teachers involve learner in self-assessment and goal setting to address gaps between performance and potential.

Standard 4: Teachers plan and deliver effective instruction that advances the learning of each individual student.
· Teachers align their instructional goals and activities with school and district priorities and Ohio’s academic content standards.
· Teachers use information about students’ learning and performance to plan and deliver instruction that will close the achievement gap.
· Teachers communicate clear learning goals and explicitly link learning activities to those defined goals.
· Teachers apply knowledge of how students think and learn to instructional design and delivery.
· Teachers differentiate instruction to support the learning needs of all students, including students identified as gifted, students with disabilities and at-risk students.
· Teachers create and select activities that are designed to help students develop as independent learners and complex problem-solvers.

Marietta College Department of Education Student Intern Handbook

7
· Teacher use resources effectively, including technology, to enhance student learning.

Standard 5: Teachers create learning environments that promote high levels of learning and achievement for all students.
· Teachers treat all students fairly and establish an environment that is respectful, supportive and caring.
· Teachers create an environment that is physically and emotionally safe.
· Teachers motivate students to work productively and assume responsibility for their own learning.
· Teachers create learning situations in which students work independently, collaboratively and/or as a whole class.
· Teachers maintain an environment that is conducive to learning for all students.

Standard 6: Teachers collaborate and communicate with students, parents other educators, administrator and the community to support student learning.
· Teachers communicate clearly and effectively.
· Teachers share responsibility with parents and caregivers to support student learning, emotional and physical development and mental health.
· Teachers collaborate effectively with other teachers, administrators, and school and district staff.
· Teachers collaborate effectively with the local community and community agencies, when and where appropriate, to promote a positive environment for student learning.

Standard 7: Teachers assume responsibility for professional growth, performance and involvement as an individual and as a member of a learning community.
· Teachers understand, uphold and follow professional ethics, policies and legal codes of professional conduct.
· Teachers take responsibility for engaging in continuous, purposeful professional development.
· Teachers are agents of change who seek opportunities to positively impact teaching quality, school improvements and student achievements.
APPLICATION AND ADMISSION TO THE EDUCATION INTERNSHIP SEMESTER

With the successful completion of all other required education coursework, the intern is entitled to apply for admission to the internship semester. This application must be submitted during the spring semester of the academic year preceding the internship semester. Internship applications will not be reviewed until all scores from the required Ohio exams for licensure and required content area recommendations are received.

Requirements for Admission into the Internship Semester

1. Formal admission and good standing in the Professional Education Licensure Program
2. Satisfactory evaluations in all field work
3. Completion of all prerequisite courses in the intern’s licensure field(s)
4. Minimum cumulative GPA of 3.0
5. Minimum GPA of 2.75 in core content courses as designated on the Core Content Checklist
6. Passage of the required Ohio tests for licensure
7. Grade of C or better in Math 113 and Math 114 (Early Childhood majors only)
8. Minimum GPA of 3.0 in education courses
9. Completed recommendation form from a faculty member in the intern’s licensure area(s) for AYA, and Middle Childhood
10. Satisfactory assessment of professional dispositions

The Application for Admission to the Internship Semester must be submitted to the Department of Education by May 1st for the following academic year. All applications must be completed online. No paper applications will be accepted.

After the application is completed and submitted to the Education Department, the application will be reviewed by the department faculty to insure that all criteria for admission are met and that the intern’s record indicates a disposition for success in the internship as evidenced by data in the student’s permanent file.

Conditional admittance may be given if there is insufficient data supplied for any of the admission criteria. (eg. grades for required courses are not yet on file or grades of incomplete exist on the student’s transcript) Conditional admittance may require the submission of additional evidence that the intern has met the criteria stated above. The intern will be notified in writing by the Education Department indicating full admittance, conditional admittance or denial to the Internship Semester. Full admission to the Education Internship is required prior to beginning the internship semester.
Denial of Admission to the Education Internship

Interns denied admission to the Education Internship may appeal this decision according to the criteria set forth in the Marietta College Teacher Education Handbook (Section III.B.5). A copy of this document is given to each student in Education 110; additional copies are available in the Education Department office and on the Education Department website. Interns are encouraged to meet with an advisor and take advantage of remediation opportunities. Interns should resubmit the Application to the Education Internship when criteria have been met.

Completion of the Middle Childhood or SEED Education Major without Licensure

While education majors are expected to meet a great number of performance expectations prior to admission to the Education Internship, occasionally there are problems that do not appear until the intern’s final semesters of the education program. Sometimes the problem may involve an intern who does not meet final criteria for admission to the internship, an intern who fails to perform up to expectations during the actual internship semester or an intern who wishes to drop the internship because it is not what he or she anticipated. Occasionally, these problems cannot be successfully addressed to allow for a successful internship experience. In these cases, the intern will be able to graduate without completing the internship experience if the intern has completed the required number of credit hours for graduation and the minimum of 30 credit hours at the 300/400 level. Students who graduate without successfully completing the Education Internship cannot be recommended for an Ohio teaching license.

Completion of the Education Internship/Recommendation for Ohio Resident Educator License

The application for initial licensure can be downloaded from the Ohio Department of Education website. During a capstone seminar meeting, an Education Department representative will explain the application process. This application needs to be completed and submitted online to the Ohio Department of Education. Upon successful completion of the internship semester and completion of all other program requirements, the intern becomes eligible for recommendation for the four-year Ohio Resident Educator license. The intern’s license application must be signed by the Chair of the Education Department to indicate that the intern has met all of the criteria listed below.

To be recommended for an Ohio teaching license interns must:

1. Complete all courses required for the licensure
2. Fulfill all requirements for graduation from Marietta College or hold a bachelor’s degree from an accredited four-year institution.
3. Earn a grade of C or higher in Education 440, Capstone
4. Earn a minimum cumulative GPA of 3.0
5. Receive an overall rating of 2.0 on the Internship Evaluation rubric
6. Receive an acceptable score on the Teacher Performance Assessment
7. Successfully complete all examination(s) required for licensure by the Ohio Department of Education

8. Complete a BCI and FBI fingerprint and background check and submit it to the Ohio Department of Education

9. Establish a SAFE account and complete the Ohio online licensure application at https://safe.ode.state.oh.us/portal

Teaching Licenses

When all requirements for licensure are completed and the final grades are published by the registrar, the Education Department Chair will approve the online applications. The issued licenses are then returned to the Marietta College Education Department and sent via registered mail to interns. This process takes four to six weeks from the time grades are issued.

Interns are responsible for completing the online Application for Initial Ohio Teaching License. This application will be approved online by the Education Department Chair when the following conditions have been met:

- The intern has completed all course requirements for the license and has been granted the bachelor’s degree
- The intern has submitted and passed the Teacher Performance Assessment
- The intern has submitted proof of a successful BCI and FBI check to the Education Department.
- The Education Department has received notification of the intern’s passage of all required Ohio licensure exams.

Realizing that students are in search of teaching positions prior to receiving the official license document, the Education Department, upon request, provides students with a letter, stating that all requirements have been fulfilled and that licensure has been recommended. The issuance of licenses can in no way be hurried or altered and most school districts understand this process. When making application for employment, students should indicate that their teaching license is, “in process.”

Ohio Licenses

The State of Ohio provides the following teaching licenses.

A. Resident Educator License (Valid for four calendar years)

- a. This is the initial Ohio teaching license and is issued to one who holds at least a Baccalaureate Degree and who has completed an approved teacher preparation program.

- b. Requires the license holder to participate in a K-12 residency program under the supervision of a mentor teacher.

- c. May be used for substituting
B. **Professional Educator License (Valid for five years)**
   
a. Successful completion of the Ohio Residency Program

C. **Senior Professional Educator License (Valid for five years)**
   
a. Requires the intern to hold at least a masters degree, to have previously held a professional educator license, and to meet criteria for the accomplished or distinguished level of performance as described in the Ohio Standards for the teaching profession

D. **Lead Professional Educator License (Valid for five years)**
   
a. Requires intern to hold at least a master’s degree; to have previously held a Professional Educator License or Senior Professional Educator License; to meet the criteria for the Distinguished level of performance as described in the Ohio Standards for the Teaching Profession; to either hold National Board Certification or meet Master teacher criteria or other criteria for a Lead Teacher adopted by the Educator Standards Board.

**LINK TO OHIO DEPARTMENT OF EDUCATION:**

**Educator Licensure**

*Process by which teachers and administrators obtain the necessary credentials to practice in Ohio*

The Education Internship Semester

Internship Fees and Costs for Licensure

During the Education Internship semester, the intern is assessed an internship fee. This fee is typically billed at the beginning of the semester along with the tuition and fee charges for the semester. The internship fee is used to help offset expenses for the internship including mileage reimbursement paid to supervisors, adjustment to faculty course loads to insure the 16 to 1 intern-supervisor ratio, and payment for clinical mentor teachers. Information about the amount of the internship fee may be obtained by contacting the college business office prior to the beginning of the academic year.

Interns need to plan for additional costs associated with obtaining a teaching license. These costs are as follows:

- **Fee for the BCI and FBI background check** – All interns for teaching licenses need to undergo a background check. The current fee associated with this is available from the Director of Field and Clinical Experiences.
- **Ohio License Application Fee** – Applicants for an initial Ohio Resident Educator license must pay an application fee. The current fee associated with this is available online from the Ohio Department of Education.
- **State-mandated Teacher Performance Assessment** – As required by the state of Ohio, the intern will be responsible for the fee associated with a standardized performance assessment during the Education Internship.

**Weekly Plans**

Copies of weekly lesson plans must be submitted to the college supervisor and the clinical mentor teacher during the internship experience. College supervisors will inform each intern of the required format for these lesson plans. Lesson plans for the upcoming week will be due by 10:00 pm on Friday. Failure to turn in lesson plans in a timely manner will be reflected in the intern’s evaluation and could possibly result in removal from the internship if this an ongoing problem.

**Absences**

No unexcused absences will be permitted during the internship experience. In emergency situations, the intern is responsible for immediately notifying the clinical mentor teacher, the director of field and clinical experiences, and the college supervisor who, in consultation with the clinical mentor teacher, will determine whether or not an absence is excused.

**Attendance Policy:**

The Chair of the Education Department has the responsibility to guarantee to the state of Ohio that all standards for certification are met. Therefore, make-up time is required for instances of excessive absence, regardless of cause, and for all unexcused absences. Make-up days will be full teaching days for the intern.

No unexcused absences will be permitted during the internship experience. In emergency situations, the intern is responsible for immediately notifying the clinical mentor teacher, the director of field and clinical experiences, and the college supervisor who, in consultation with the clinical mentor teacher, will determine whether or not an absence is excused. Absences due to school cancellation for weather or other circumstances do not need to be made up.
Interns are required to attend all scheduled days and need to arrive and leave school at the times designated for teachers. Participation in parent conferences or school functions may require after school or evening attendance.

The following policy applies to approved absences:

- Excused absences will only be granted if the internship performance has been satisfactory as determined by the mentor teacher and college supervisor.
- Up to 3 days for approved co-curricular or athletic participation, professional development, professional conferences, job fairs, or job interviews are allowed during the internship semester. Leaving school for athletic practices does not constitute an approved absence.
- Leaving school in excess of one hour before the scheduled dismissal time constitutes a missed day.
- Absences for the aforementioned reasons need to be approved at least 3 full days in advance. The intern needs to have the absence approved by the clinical director, the mentor teacher and the college supervisor.
- Detailed lesson plans with all necessary materials must be submitted to the mentor teacher prior to the excused absence.
- All missed days, other than professional days, must be made up immediately following the end of the internship semester. This requirement will be waived if the intern is performing at a satisfactory level and the number of absences has not been excessive. The clinical director in conjunction with the college supervisor and clinical mentor teacher will determine if this requirement is waived.
- Absences during the edTPA learning segment are not permitted.

**POLICY ON CO-CURRICULAR PARTICIPATION DURING THE INTERNSHIP**

This policy applies only to education interns who are participating in athletic and other college sanctioned co-curricular events during the fulltime internship semester. The following rules apply to these interns:

- Participation on an athletic team or in a college sanctioned co-curricular activity needs to be declared at the time the teacher candidate submits the application for internship. Note: The education department cannot guarantee that the fulltime internship placement will be with the same mentor teacher or in a partnership school if the teacher or principal does not agree to allowing the intern to be excused for athletic/co-curricular participation.
- A schedule of athletic competitions or dates for co-curricular events needs to be provided to the director of field and clinical experiences, the college supervisor and the mentor teacher at the beginning of the semester. The mentor teacher and college supervisor need to be notified of make-up times for athletic competitions at least 24 hours in advance.
- When the intern needs to leave prior to the end of the school day for an athletic competition or co-curricular event, the intern is required to take an entire day off from the internship placement. This day must be made up following the conclusion of the scheduled internship experience.
- If the intern is planning to miss the week of the college's spring break to travel with an athletic team, the intern needs to return to campus a week early in January to begin the internship experience.
- The intern needs to be aware of the edTPA submission deadline and ensure that the edTPA teaching segment is completed if there are planned absences. The edTPA teaching segment cannot be interrupted by absences so the intern needs to plan accordingly.
- The grade for the internship will not be submitted until all make-up days are completed.
- Approval of the teaching license application cannot occur until the internship grade is submitted.

**Make-up Time**

The Chair of the Education Department has the responsibility to guarantee to the state that all standards for licensure are met. Therefore, make-up time shall be required for instances of excessive absence regardless of cause. Interns must be full participants in the classroom during make-up days.

*Marietta College Department of Education Student Intern Handbook*
Professional Days
Three excused absences for the purpose of approved co-curricular or athletic participation, professional conferences, job fairs, or job interviews are allowed during the internship semester. These absences must be cleared at least 3 week-days in advance with the clinical director, clinical mentor teacher and the college supervisor. Spring semester interns are excused for one day of those days to attend the spring job fair. See Attendance Policy for additional information.

Calendar
Interns are required to complete a minimum of 14 weeks teaching in the area(s) of licensure. At least 40 days of the 14 weeks must involve full-time responsibility as the lead teacher for planning and teaching. The 40 days is the minimum number of full-time teaching days and in no way implies that the intern should return responsibility of the classroom to the clinical mentor teacher at the end of those 40 days. The intern and clinical mentor teacher should not plan for the intern to transition out of full responsibility as lead teacher until the final week of the internship experience.

The intern will follow the calendar of the school district during the internship semester. When the school district calendar differs from the Marietta College calendar, the intern will be required to participate in the internship during any college vacation days. In such a case, the intern is responsible for securing his/her own lodging and meals. The office of residential life may be contacted for help in securing lodging during these periods.

School Policy
Each clinical school site has its own policy concerning rules and regulations. It is the responsibility of the intern to consult the faculty handbook and the clinical mentor teacher early in the semester concerning these policies. Interns are required to follow the policies of the cooperating schools.

Professional Dress and Conduct
Interns should dress professionally at all times and follow the established Department of Education dress code which is:
- No body piercings. Only one pair of earrings
- No jeans, shorts or capris
- No sandals or open-toe shoes
- No underwear showing
- No cleavage, midriffs, and/or bottoms showing
- No yoga pants or leggings worn with short tops. Leggings may be worn if the top length is mid-thigh.

It is important that interns establish and maintain a positive professional relationship with students. Therefore, a personal or social relationship with students and outside curricular and extra-curricular activities with students should be entered into with extreme care. For example, dating or similar social engagements with a student(s) in the cooperating school is considered inappropriate professional conduct. Online contact with students should only be done through the appropriate approved school or mentor teacher website. Interns should not interact with students on Facebook, Twitter, Snapchat, Instagram or any other forms of social media.

Interns who engage in inappropriate professional conduct will be removed from the internship placement.

The Intern as Substitute
Interns may not act as substitutes for their clinical mentor teachers. Interns cannot accept financial remuneration for activities that constitute the internship experience.
The Legal Status of the Intern

Legal precedent indicates that interns in the performance of their assignment assume the same legal status as the clinical mentor teacher.

Internship Liability

All interns have liability protection under the College insurance policy.

Placement of Interns

To insure proper supervision, all interns are placed in an elementary, middle, or senior high school in the Washington/Wood County area. A trained college supervisor works with the clinical mentor teacher to ensure that the intern has a successful experience.

College supervisors observe and meet with the intern at least once a week. Clinical mentor teachers and college supervisors are trained in the use of assessment criteria in order to insure that intern performance is accurately and fairly evaluated and appropriate feedback is shared with the intern.

In order to insure a variety of experiences, the intern’s prior field experience placements are considered when the internship placement is made. Interns are not permitted to intern in a building where they attended school as a P-12 student or intern out of the Washington/Wood County Area.

Transportation

Transportation for the Education Internship semester is the responsibility of the intern. Adjustments to internship placements will not be made for transportation issues.

Conferences

Conferences with the clinical mentor teacher and the college supervisor are an integral part of the internship experience. Informal conferences occur frequently between the intern and clinical mentor teacher.

The clinical mentor teacher’s primary function is to encourage and guide the intern toward a successful experience. He/She will provide opportunities to experiment with different teaching techniques and will observe and evaluate growth in teaching.

The college supervisor’s primary functions are to observe the intern on a weekly basis, to offer constructive suggestions for improvement through the weekly observation reports, and encourage the intern to perform to his/her fullest potential. Conferences between the college supervisor and the intern are also scheduled. These conferences take place at various intervals throughout the semester. A final conference is scheduled for the end of the semester.

Evaluation

At the midpoint of the Education Internship semester and at the conclusion of the internship period, both the clinical mentor teacher and the college supervisor will complete an evaluation rubric and professional disposition rubric that will become a part of the intern’s permanent file. In all cases the college supervisor will consult with the clinical mentor teacher in determining the final grade for internship. College policy requires that the college supervisor be responsible for assigning the final grade in the Education

Marietta College Department of Education Student Intern Handbook

16
Internship. To be licensed, interns must receive a grade of “S” in their internship semester. This grade is based on acceptable ratings in all rubric areas.

If areas of the midterm evaluation are unacceptable, the college supervisor, clinical mentor teacher, and the clinical director should work with the intern to develop an improvement plan which should include target dates for meeting the goals of the improvement plan.

Extension of the Internship Experience
If the intern is having difficulty meeting the goals of the internship semester or any additional goals as outlined in an improvement plan or if any area of the final evaluation is unacceptable at the conclusion of the internship semester, the college supervisor and clinical director will meet with the education department chair and one of the following options will be implemented:

- The intern will be required to complete additional weeks of internship in order to work on unacceptable areas and demonstrate competence in these areas.
- The intern may be given the opportunity to repeat the internship semester in order to demonstrate acceptable performance.

Failure to achieve an acceptable rating in all rubric areas will result in a grade of unsatisfactory for the Education Internship course and the intern will not be eligible for a teaching license.

Removal from Internship
In cases where unacceptable performance or unprofessional conduct leads to a request from the school to remove the intern from the placement, the intern is required to withdraw from the Education Internship. The intern is not entitled to a new internship placement.

Interns who are denied licensure by the Education Department may appeal by using the steps described in the *Marietta College Teacher Education Handbook* (Section III.B.5).

Internship Supervision
All interns are supervised by a qualified member of the Marietta College faculty who has contemporary experience at the appropriate level. College supervisors visit the intern’s classroom a minimum of once a week and share feedback with the intern and the clinical mentor teacher. College supervisors must provide interns with a copy of the weekly observation report within 24 hours of the observation.

If the intern does not receive a copy of the observation report with 24 hours of the observation, the intern should contact the clinical director.

Legal Status
All interns have liability protection under the college’s insurance policy. Legal precedent indicates that interns, in the performance of their assignments, assume the same legal status as the clinical mentor teacher.

Interns are not permitted to act as a substitute for their clinical mentor teacher or for any other teachers in the building. Interns cannot accept financial remuneration for activities that constitute the internship experience.
Internship Requirements

1. By the end of the first week of internship experience, the intern should establish a takeover schedule with the clinical mentor teacher. The Department of Education at Marietta College requires the intern to act as the lead teacher with a full load of classes for 40 instructional days prior to the end of the internship experience. Extending the amount of time that the intern acts as the lead teacher past the required 40 days is encouraged provided the clinical mentor teacher approves. The intern needs to **submit a copy of the takeover schedule to the college supervisor at the second scheduled observation.** The clinical director should also receive a copy of the takeover schedule. See the Important Dates for Student Teaching handout for additional information.

2. For all lessons the intern must submit to the college supervisor and clinical mentor teacher lesson plans in the format agreed upon by the college supervisor and the clinical mentor teacher. These plans must be submitted to the college supervisor using the method preferred by the college supervisor. (email attachment, Via, Google Docs, etc). The format, the day, and the time of submission will be determined by the college supervisor in collaboration with the clinical mentor teacher.

   Each week, one lesson that follows the Marietta College lesson plan format must be submitted in by 10:00 pm on Friday for the next week of classes. The selected lesson will be determined by the college supervisor in collaboration with the intern. The lesson selected will be the lesson that the college supervisor will observe that week. The lesson plan templates for the different licensure areas are found in this handbook. See the Table of Contents.

   If the college supervisor and/or mentor teacher feel that the intern needs addition practice in developing lessons, additional detailed lesson plans may be required.

3. The college supervisor will observe the intern numerous times during the internship experience. The goal is at least one observation each week. While the department faculty and supervisors realize that the lessons the intern will plan and teach are, to some degree, developed in collaboration with the clinical mentor teacher, **the college supervisors will look for application of various teaching strategies and behaviors that the intern has learned at Marietta College.**

   It is the responsibility of the intern to complete the Required Activity Checklist and to make the college supervisor aware of when those activities are completed.
General Information for Clinical Mentor Teachers

Criteria for the Selection of Clinical Mentor Teachers

The Clinical Director works with the building administrator or school district designee to ensure that clinical mentor teachers meet the following criteria:

1. Possess a valid teaching license in the area to be supervised
2. Possess a minimum of three years teaching experience in the area to be supervised
3. Demonstrate a willingness to attend the orientation session for clinical mentor teachers
4. Demonstrate a willingness to allow the intern to try methods, materials, and classroom techniques that might differ from those currently used in the classroom
5. Demonstrate a willingness to encourage reflection and supply the intern with constructive feedback
6. Demonstrate a willingness to share information with the college supervisor
7. Demonstrate a willingness to fairly assess the intern’s performance using the performance rubric
8. Demonstrate a willingness to provide Marietta College with feedback about the teacher education program, including suggestions for program improvement.

Roles and Responsibilities of the Intern

The intern shall:

1. Provide the clinical mentor teacher with adequate background information.
2. Notify the clinical mentor teacher and college supervisor of any circumstances which might lead to absence from the internship assignment.
3. Abide by school and college policies and regulations.
4. Follow the calendar and schedule of the cooperating school district.
5. Prepare appropriate lesson plans in collaboration with the clinical mentor teacher and which shall be available to the clinical mentor teacher and/or college supervisor at all times. In certain cases, the school principal will also request a copy of the intern’s lesson plans.
6. Manifest a willingness to participate in all activities of the school system.
7. Acquire and be aware of all pertinent information regarding students, ensuring this information is used for professional purposes only.
8. Participate in the ongoing process of evaluating personal progress.

Roles and Responsibilities of the Clinical Mentor Teacher

The clinical mentor teacher shall:

1. Become acquainted with all pertinent background information about the intern.
2. Prepare the class for the intern’s arrival.
3. Attempt to create a pleasant and comfortable atmosphere for the intern as a professional colleague.
4. Acquaint the intern with school policies and procedures.
5. Acquaint the intern with all relevant instructional materials and resources in the school system.
6. Provide the intern with important background information about the students.
7. Collaborate in lesson planning with the intern to insure a successful learning experience for the students.
8. Provide the intern with on-going assistance, advice, and feedback on his or her performance through conferences and in writing, e.g. interactive journaling.
9. Complete a formal interim and final evaluation of the intern’s performance and participate with the intern and the college supervisor in the interim and final conference.

Roles and Responsibilities of the College Supervisor

The college supervisor shall:
1. Arrange a pre-teaching conference with the clinical mentor teacher to communicate program goals and expectations.
2. Ensure that both the intern and the clinical mentor teacher are acquainted with evaluation criteria and procedures.
3. Help determine a time table according to which the intern transitions into full-time responsibilities as lead teacher.
4. Visit the classroom and observe the intern’s performance on a weekly basis throughout the semester and provide both verbal and written feedback to the intern.
5. Arrange for and be involved in periodic conferences with the intern and clinical mentor teacher in order to assess the intern’s progress.
6. Complete a formal interim and final evaluation of the intern’s performance and participate with the intern and clinical mentor teacher in the interim and final conference.

Preparing for the Intern

Before the intern arrives in the classroom, the following suggestions should be considered by the clinical mentor teacher:

1. Prepare the class for the intern’s arrival.
   • Share some of your knowledge about the intern’s background.
   • Describe the purposes of internship.
   • Discuss ways the students can help the intern (cooperation, interest, etc.).
   • Discuss ways the students might make the intern feel welcome in the classroom.

2. Prepare a workstation for the intern.
   • Arrange for the intern to have his or her own desk or table to use during internship.
   • If possible, secure extra copies of teacher’s editions of textbooks.
   • Gather any other materials which might be necessary for the intern’s activities.

3. Assist in the preparation of the intern.
   • Meet with the intern prior to the beginning of the internship experience.
   • Share pertinent information about the students in your classroom.
   • Share copies of the student and faculty handbooks, if available.
   • Discuss the daily schedule, required duties, and other professional responsibilities.
   • Plan for the intern’s initial classroom responsibilities and begin to make a long-range timetable for transferring teaching duties to the intern.
Assuming Teaching Responsibility

Due to the differences among interns and among clinical mentor teachers and their classrooms, it is not practical to require the intern to assume teaching responsibilities according to a rigid timetable. It is strongly suggested, however, that the integration of the intern into the role of teacher progress gradually, with the clinical mentor teacher assuming less of a presence in the classroom as the semester progresses. A plan for integrating the intern into the role of teacher should be decided early in the experience and should be discussed with both the college supervisor and the student.

It may be helpful to the clinical mentor teacher to view this process in terms of the three phases explained below.

**Phase I: Orientation**

Interns should assume some sort of classroom responsibility immediately. Activities that enable interns to familiarize themselves with classroom procedures and students are particularly beneficial. It is important at this stage that students perceive the intern as an active participant rather than an observer. This phase should begin after the intern has visited the classroom for 2 or 3 days.

**Phase II: Transition**

As soon as interns have been adequately oriented to the classroom and school, they should begin to assume limited but definite instructional duties. In this phase the clinical mentor teacher is the lead teacher with the intern acting as the assistant teacher.

This phase should start sometime during the first official week of internship. As the intern progresses through this phase, responsibilities should be increased in preparation for taking over the responsibilities as the full-time lead teacher.

**Phase III: Full-Time Lead Teacher Responsibility**

During the final phase, the intern assumes full responsibility as the lead teacher for the instructional planning and the management of the classroom. The intern should be encouraged and allowed, within reason, to develop his/her own unique teaching style.

The clinical mentor teacher’s function now shifts from lead teacher to assistant teacher. In this new role, the clinical mentor teacher should allow the intern to take the lead in lesson planning, assist as needed with implementation of the lesson plans, observe and evaluate the intern’s classroom work, and offer constructive critiques and moral support.

While the internship experience is 12-14 weeks, the full-time lead teacher phase should be at least **8 weeks or 40 days** of internship. This phase should last until the end of the internship semester. The clinical mentor teacher should begin to take over classes during the last three days of this internship phase.
Evaluation of the Intern

CONFERENCES

The clinical mentor teacher should attempt to provide both informal and formal written feedback during frequent conferences with the intern. Emphasis should be placed on giving positive reinforcement and constructive criticism based on observation of the intern’s performance.

Likewise, conferences between the intern and the college supervisor and between the clinical mentor teacher and the college supervisor are an integral part of the internship experience. The clinical mentor teacher should discuss the intern’s performance with the college supervisor on a regular basis and inform the college supervisor of any problems or weaknesses which have been identified.

If, at any time during the internship term, either the clinical mentor teacher or college supervisor is concerned by any aspect of the intern’s performance or dispositions, a 3-way conference should be arranged immediately and the concern(s) shared and discussed with the intern. The intern is given the opportunity to remediate apparent deficiencies according to a timetable and benchmarks established at this conference. See II below for procedures for addressing problem areas. The intern, the clinical mentor teacher, the college supervisor, and the Director of Student Teaching will receive a written summary of the deficiencies, the timetable, and the benchmarks necessary to remediate the deficiencies addressed at the conference.

If the intern continues to perform in an unsatisfactory way, he or she may be required to extend the internship term or may be dismissed from internship and, thus, be ineligible for the provisional teaching license. In the case of dismissal, the intern would have to repeat internship and receive all Acceptable or Target scores before applying for his or her teaching license.

The following outline offers a guideline for conducting effective conferences with the intern:

I. Beginning
   A. Exchange of “need to know” information
   B. Progress to date
   C. Purpose of the conference

II. Substance
   A. Ask questions to elicit intern comments and self-appraisal
   B. Discuss positive aspects
   C. Isolate problem(s)
   D. Discuss possible solutions
   E. Agree on procedures to be followed to solve problem
   F. Set goals

III. Closing
   A. Summarize the meeting
   B. Reiterate goals
   C. Provide positive feedback

IV. Follow-Up
   A. Monitor progress toward goals

Marietta College Department of Education Student Intern Handbook
22
Suggestions for a Positive Intern / Clinical Mentor Teacher Relationship:

- Establish a written dialogue between the two teachers, perhaps in the form of response journals, whereby the intern reflects on what he or she has observed, experienced, or questioned, and the clinical mentor teacher offers constructive feedback regarding the intern’s performance in the class.
- Combine formal conferences with informal conversations regarding the intern’s performance in your class; give positive comments along with those that indicate the need for improvement.
- Solicit from the intern areas of concentrated observation. For example, the intern may ask you to focus an observation on some aspect of classroom management that he or she finds challenging.
- Provide professional literature (journals, handbooks, etc.) that the intern might use to gain additional insight into the nature of teaching and learning.
- Allow the intern to try out various strategies he or she has studied in the methods courses at Marietta College.

Extension of Internship

The internship placement may be extended for additional weeks if the intern is struggling with meeting the goals of the internship. The extension will take place only if the clinical mentor teacher and the college supervisors agree that the extension would be beneficial to the intern and the clinical mentor teacher agrees to the extension. If the extension is denied, the intern will have to return during the next semester to complete an additional internship placement.

Removal from Internship

If it becomes necessary to remove an intern from an internship placement for any reason, the intern will **not** be given a new placement and will have to withdraw from the internship for the remainder of the semester.

Once an intern is removed from an internship placement, the intern will need to reapply to the Department of Education for acceptance into the internship program in order to be again considered for an internship placement.

**Differentiation and/or Universal Design for Learning (UDL)**
You are **REQUIRED** to include accommodations and modifications for any student who has an IEP or 504 plan and students who are English Language Learners (ELL). You should also include ways you might differentiate instruction (remember product, process, content, etc.) for other students who need varied levels of challenge or support to meet their full potential, or for groups of students based on things like learning style preferences or multiple intelligences. Please note these in the chart below. If you have opted to change the design of the overall lesson using UDL, please explain that below the chart.

<table>
<thead>

**Universal Design for Learning (if applicable):** Describe here ways in which you used UDL to approach the overall planning for this lesson so that it benefits all learners.

Click here to enter text.
Academic Language

Vocabulary-
List the essential vocabulary words used in the lesson

Academic Language Function-
List the thinking words, or language functions, that are used in this lesson

Language Supports-
Consider the supports, or pedagogical approaches that you will use to teach the vocabulary and academic.

Preflection Questions (Pre-Instruction):
- What misconceptions do you anticipate in the lesson, and how will you address it?
- How will you determine that the students have prior knowledge needed to participate in this lesson? (pre-assessment)

Lesson Procedures

Vocabulary Words or Language Functions Students Need to Know: (NOTE: You should consider including procedures for how students will learn these terms below)

Classroom Management Considerations: (Describe anything that you need to keep in mind in order to promote a positive classroom climate for your lesson)

Lesson Introduction: (AKA anticipatory set, warmup, bellwork…in other words, what will be done to review, preview, capture student interest, etc.)

Lesson Procedures: (Provide a detailed list of steps that you will take to implement this lesson. Think about opportunities for guided practice, independent practice, modeling, checking for understanding, etc.)

Homework/Extension Activities:  

Connections to Research  
Explain how at least one of your planning choices described above connects to educational research and/or theory. There are many different aspects of your planning that this might have applied to. Think about why you chose the materials you chose, the pedagogical approaches you used, the assessment practices, accommodations you have included, your knowledge of prior learning or student’s assets, etc. NOTE: Be sure to articulate WHY you expect this approach to impact student learning in a positive way.

High Leverage Practices  
Select at least one of the High Leverage Practices (HLPs) from the list below that will be used in the lesson. Provide a brief explanation about how this HLP is present in your lesson.
Reflection Questions (Post-Instruction):

☐ Based on your assessment data and observations, if you could teach this lesson again to these same students, what would you do differently?

☐ Based on your assessment data and observations, what are your next steps with this group of students based on the student’s performance in this lesson?
### Required Activity Checklist

### Assessment

| Uses formative assessment techniques that are aligned with lesson objectives and activities to evaluate student learning. |
| Uses summative assessment tools that are aligned with lesson objectives and activities to evaluate student learning. |
| Uses an array of strategies for assessment to accommodate diversity of students. |
| Is able to identify the extent to which objectives are met. |
|Communicates progress with students, colleagues, and parents. |

### Teacher Professionalism

| Models professional dress and demeanor. |
| Communicates effectively – uses proper English, models excellent spelling skills and legible handwriting. |
| Expresses a positive attitude about all students’ ability to learn. |
| Is an engaged participant in co-teaching experience. |

**Suggestions for Improvement:**

This form should be completed to indicate that the teacher intern has a problem in the following area(s).

☐ Teacher Intern Dispositions
  ☐ Appreciation for professional dress and demeanor in school settings
  ☐ Responsible and ethical behavior
  ☐ Attendance and submission of work in a timely manner
  ☐ Appreciation of cultural diversity
  ☐ Appreciation of diversity in student backgrounds, skills, and abilities
  ☐ A belief that all students can learn
  ☐ Collaboration with professional colleagues
  ☐ Appreciation for the role of families in facilitating student learning
  ☐ Willingness to attempt new approaches and technologies to enhance student learning
  ☐ Positive attitude toward learning as an ongoing, life-enriching process
  ☐ Willingness to assume leadership roles

☐ Teacher Intern Knowledge:

☐ Teacher Intern Skills

Explanation of area(s) of concern. Please include, as applicable, specific date(s), behavior(s) observed, or complete description of incident, any interactions you have had with the teacher intern concerning the area(s) of concern.

**Pedagogy Evaluation**

Student Teacher: ________________________     University Supervisor: ________________________

Cooperating Teacher/s: ________________________     Semester: ________________ Date: ________________

**Directions** – The form will be used twice during the course of the term and will be provided by the Program Coordinator to the University Supervisor, Cooperating Teacher, and Student Teacher. Each member of the team (Cooperating Teacher, University Supervisor, and Student Teacher)

1) Completes the evaluation in week 5 or 6 (Mid-term) of the student teaching experience AND in week 13 or 14 (Final)
2) Brings the completed form to the mid-term and final 3-way conference

At the Mid-term 3-way conference

1) Goals are set for the remainder of the student teaching experience
2) The University Supervisor records the consensus ratings and enters into the University data system by the end of week 7

At the Final 3-way conference

1) Suggestions and comments are made to assist in the transition to teaching role
2) The University Supervisor records the consensus ratings and enters into the University data system by the end of week 14

Additional information about and support for using the form can be found in the VARI-EPP Student Teaching Form Training Modules, the “Glossary” and the “Look Fors” document.

Professional Dispositions Evaluation

**What are dispositions?** The habits of professional action and moral commitments that underlie an educator’s performance (InTASC Model Core Teaching Standards, p. 6.)

**What else should a teacher candidate know?** It is the student teacher’s responsibility to ask clarifying questions as well as demonstrate the expected dispositional behaviors. REMEMBER: Only those dispositions observed in student teaching can be measured, therefore it is up to the student teacher to demonstrate the dispositions.

**What went well? Areas of strength?**

**Possible opportunities for growth**
Goals for Improvement: Pedagogy and Dispositions
Following the Three-way Midterm Evaluation between the Student Teacher, University Supervisor, and Cooperating Teacher, the Student Teacher will identify three specific and measurable goals for improvement for the duration of the student teaching experience. The University Supervisor and Cooperating Teacher will then affirm and/or suggest goals for the Student Teacher. As part of the final summary evaluation, goals for the Resident Educator Program should be identified.

Comments
Glossary of Terms

Advocacy: Any action within professional boundaries that speaks in favor of, recommends, argues for a cause, supports or defends, or pleads on behalf of others. This may be to advocate for the profession, an individual student, or other ideas.

Analysis: Careful and critical examination of data and/or processes to identify key components and potential outcomes.

Assessment: “Process of monitoring, measuring, evaluating, documenting, reflecting on, and adjusting teaching and relearning to ensure that learners reach high levels of Achievement.”1

Contemporary Tools: Electronic/digital record-keeping tools such as an online gradebook and progress monitoring systems, spreadsheet software, etc.

Cooperating Teachers: (Also known as “mentor teachers”) Teachers in schools who mentor and supervise student teachers in their classrooms for the duration of a student teaching and/or field experience.

Critical Thinking: Refers to the “kind of thinking involved in problem solving” and includes an ability to “examine assumptions, discern hidden values, evaluate evidence, and assesses conclusions.”2

Culturally Relevant: Incorporating the tenets of culturally relevant/responsive teaching (i.e., “teachers create a bridge between students’ home and school lives, while still meeting the expectations of the district and state curricular requirements. Culturally relevant teaching utilizes the backgrounds, knowledge, and experiences of the students to inform the teacher’s lessons and methodology.”).3

Data-informed decisions: “Focuses on using student assessment data and relevant background information to inform decisions related to planning and implementing instructional strategies at the district, school, classroom, and individual student levels.”4

Developmental Theory (General): Theories that describe the stages of development of children/adolescents (e.g., Erikson’s Theory of Psychosocial Development, Kohlberg’s Theory of Moral Development, Piaget's Cognitive Development Theory, Behavioral Theories, and Sociocultural Theories).

Developmental Theory (Content-Specific): Content-specific theory that organizes activities and learning tasks to help learners move from one level to the next.5

Diagnostic Assessment: (Also known as “pre-assessment”) “Involves the gathering and careful evaluation of detailed data using students’ knowledge and skills in a given learning area.”6

Differentiation of Instruction: “To respond to variance among learners” (e.g., learners with exceptional needs, second language learners, gifted learners) by modifying “content, and/or process, and/or products, and/or the learning environment” according to learners’ readiness, interest, or learning profile.”7

Digital Tools: Technologies that enable learners to engage with the teacher and/or content on an individual level. Examples: SMART Boards, learner response systems (i.e., clickers), and computers, tablets, etc.

Evidence: Artifacts that document and demonstrate how [the student teacher] planned and implemented instruction8

Feedback: “Information communicated to the learner that is intended to modify the learner’s thinking or behavior for the purpose of improving learning.”9

Formative Assessment: “Assessment used continuously throughout learning and teaching, allowing teachers to adjust instruction to improve learner achievement.”10

Fosters: To promote the growth or development of, encourage.10

Funds of Knowledge: “Historically accumulated and culturally developed bodies of knowledge and skills essential for household or individual functioning and well-being.”11

Goals: See definition for “Measurable Goals.”

Learner: Any P12 student in the student teacher’s classroom.

Learning Environment: Any setting where learning occurs. The term may refer to the physical environment (e.g., the classroom), as well as the classroom management procedures and activities that enable teaching and learning to take place.

“Look Fors” Document: A document accompanying this form containing a non-exhaustive list to describe examples of the qualities and behaviors a student teacher is expected to demonstrate for a given level of performance.

Measurable Goals: “Provides information for describing, assessing, and evaluating student achievement.”12

Mentor Teachers: See definition for “Cooperating Teachers.”

Objectives/Targets: P12 student (learner) learning outcomes to be achieved by the end of the lesson or learning segment.13

Problem solving: A mental process that involves discovering, analyzing and solving problems. The ultimate goal of problem-solving is to overcome obstacles and find a solution that best resolves the issue.

Program Coordinator: Faculty or staff member from a college or university who coordinates/manages the administrative components of a teacher educator licensure program.

**Research:** “The use of rigorous, systematic, and objective methodologies to obtain reliable and valid knowledge.”

**Student Teacher:** (Also known as “intern” or “candidate”) An individual participating in a full-time field experience in a P12 classroom in order to obtain professional education licensure/certification.

**Student Teaching:** (Also known as “clinical practice”) A full-time field experience in a P12 classroom that occurs in the final semester (culminating experience) of an educator preparation program and is required to obtain professional education licensure/certification.

**Summative Assessment:** “Assessment activities used at the culmination of a given period of time to evaluate the extent to which instructional objectives have been met.”

**Targets:** See definition for ‘Objectives/Targets.’

**Technologies:** See definition for ‘Digital Tools.’

**University Supervisor (US):** The university instructor assigned to the student teacher who regularly observes his/her performance to provide feedback on strengths and weaknesses. The US coordinates the student teacher’s evaluation, and is responsible for recording the consensus scores using this form.
